Interests and activities

My major interests in life are social life, sports, cooking and travel. In sports I have practiced everything from beach volley, rugby (winner of the District School Championships 2000), and table-tennis (winner of the KFUM Regional Championships 1995) to sports climbing (climb of Mount Cotopaxi, 5897m, Ecuador 2003). I am open-minded and have a positive personality, I enjoy trying new things and seek challenges. I also dare to say that I finish my projects, and that I do it with high set ambitions.
